WWW.AREI.INFO

The screenshot displays the AREI website homepage. At the top left, there are language options (FR, ENG) and social media icons (Facebook, Twitter, LinkedIn, Instagram, YouTube). The AREI logo, featuring a stylized African map with a power plug, is centered at the top, with the text 'Africa Renewable Energy Initiative' below it. A 'PUBLISH A PROJECT' button is located at the top right. A navigation bar includes links for HOME, INFORMATION & STRATEGY, I.D.U., PROJECTS, OUR PARTNERS, AGENDA & MEDIA, and NEWSLETTER. The main banner features a map of Africa on the left, a central illustration of renewable energy infrastructure (solar panels, wind turbines, power lines, and a dam), and a target of '2030 - 300 GW' on the right. Below the banner, statistics are presented: PHASE I (2020 - 10 GW Success) with 54 countries, 208 adopted projects, 642 labeled projects, and 127 published projects; and PHASE II (2030 - 300 GW Challenge). A section titled 'Africa Renewable Energy Initiative' contains a 'Training of focal points' box with sessions for 19-20 (French) and 21-22 (English), and a grid of six category buttons: INFORMATION & STRATEGY, I.D.U., PROJECTS, OUR PARTNERS, AGENDA & MEDIA, and EMPLOYMENT.

The AREI INFO website is an innovative and unique platform in the world: it gathers in one place hundreds of renewable energy projects from the same continent, Africa.

With a very powerful search engine, to easily and quickly meet the expectations of politicians and decision-makers.

For Phase 1, the focus was on the technical power of the tool. For Phase 2, we are launching a more ambitious and collaborative device, in which you are invited to take part as co-creators.

Therefore, it is asked to all to connect via this link for a real time monitoring of the training

Elements of the AREI.INFO homepage (1)

The display of the 1st page is as follows at the top:

AGENDAS - INFORMATION AND STRATEGY - IDU - PROJECTS - PARTNERS - AGENDAS AND MEDIA - NEWSLETTER

These are the main groups of presentations that will be declined for a better understanding of the architecture of the website Arei.info.

Just underneath is an interactive drop-down menu, which aims to show all the events related to our field of activity. It can also be used for the different important topics in your area on which you want to involve AREI. However, this banner can only be changed by the IDU administration.

Elements of the AR

The banner is set against a yellow background. On the left, a map of Africa is filled with various images related to energy and infrastructure, including a dam, a wind turbine, a solar panel, and a power plant. To the right of the map, the text 'Access to the agenda' is displayed in a bold, blue font. Below this, a white rectangular box contains the text 'More info on the AREI agenda'. At the bottom of the banner, there is a dark blue button with the text 'MORE INFOS' and a right-pointing arrow. In the bottom left corner of the banner, there are five small circles, with the first one being white and the others being grey.

- Access to the AREI agenda is possible from the banner.

AGENDA & MEDIA

EMPLOYMENT

AREI (Africa Renewable Energy Initiative) is a transformational initiative founded and led by Africa to accelerate, scale up and utilize the continent's enormous renewable energy potential.

The initiative focuses on developing integrated solutions to increase access to clean energy services, improve human well-being and put African countries on a path to sustainable and climate-friendly development.

When the Initiative was launched in 2015, AREI aimed to install 10 GW from renewable energy sources in 2020 (Phase I - Successful) and at least 300 GW in 2030.

This section provides:

- Presentation of AREI
- Shortcuts to the main information

NEWS & STRATEGY section

HOME **INFORMATION & STRATEGY** I.D.U. PROJECTS OUR PARTNERS AGENDA & MEDIA NEWSLETTER

INFORMATION & STRATEGY

Africa Renewable Energy Initiative (AREI) is an African-led policy decision for Africa to increase and accelerate the domestication of the continent's renewable energy potential.

Under the mandate of the African Union, approved by the Heads of State, AREI has a Board of Directors, chaired by H.E. President Alpha Condé, President of the Republic of Guinea, President Coordinator of Energy for the Continent.

The initiative aims to achieve at least 10 GW of new and additional renewable energy production capacity by 2020, and to mobilize all partners to develop Africa's potential to produce at least 300 GW by 2030.
